about Hospital

By  
Dr. Neerja Dubey  
(MS Gyn.)  
Superintendent,  
Rani Durgawati Hospital  
Jabalpur (M.P.)

Rani Durgawati Hospital, Beside High Court, Civil Line, Jabalpur M.P. Ph. 2625622

## Introduction

Rani Durgawati Hospital was previously known as lady Elgin Hospital and is still popularly known by this name. The old Lady Elgin Hospital was situated in Miloniganj and was inaugurated on 7<sup>th</sup> May 1896 by his excellence Lord Elgin, The Viceroy and Governor General of India and her Excellency the countess of Elgin. Lady Elgin was well known for her interest in female health.

The present hospital building was constructed around 1942 and is situated in the centre of Jabalpur City, next to High Court and very close to Railway Station. The Hospital Building is very old and was built much before the Medical College Hospital and used to be a teaching hospital. Medical College students were posted in this hospital for their training in Obstetric and Gynaecology. There is also a training centre attached to hospital where General Nursing Training and LHV Nurse Training is conducted. This is a separate building the main hospital building.

The hospital building itself is built at ~~low~~<sup>low</sup> level. ground floor and first floor. There are one hundred and forty two beds distributed through 8 wards General wards, 8 paying wards, the Labour Room Complex and Neonatal Unit as well as Nutritional Rehabilitation Center (NRC). The OPD complex is at the entrance of the building and consist of several rooms, Examination rooms for Gynaecology and Pregnant Patients and Paediatric Patients, an Urban Family Planning Centre, full ~~flagid~~<sup>flagid</sup> pathology laboratory, Blood Storage Unit, a dispensary and toilets for doctors and out door patients. The hospital is situated on the first floor and has three O.T. rooms, a room for sterilization, o Surgeon room and store.

Since this Hospital is situated in the centre of the City it caters ~~to~~<sup>to</sup> large population living in the city as well as surrounding rural areas. The patient who come for treatment to this hospital are generally very poor and can not afford private medical treatment. The Hospital also receives a large numbers of referred complicated patients from PHCs and CHCs.
